

Full Data Module

7094A AES-IntelliPro™ Burglary for 2.0

Technical Specifications

DIMENSIONS

2.8 in H x 5.0 in W
(7.1 cm H x 12.7 cm W)

I/O CONNECTIONS

AES Subscriber with power
Easy programming using
smartphone, tablet, or PC
Phone output from alarm panel
Trouble output (open collector)
For use with the 2.0 Burg unit
7007P-M and included with the
2.0 Burg 7007P-P-M
For 2.0 units only, not for use in
Legacy units

POWER REQUIREMENTS

12 VDC nominal, primary and
backup power provided by the
AES RF Transceiver Unit

CURRENT

50mA normal

HOW TO ORDER

Models & Descriptions:

7094A - AES-IntelliPro 2.0 Burg
accessory board (refer to 7094
for Legacy units)

Subscriber with Upload/
Download & Multiple
Communication Technologies
(MCT)

7007P-P-M - 2.0 Burglary
Subscriber with Upload/
Download, AES-IntelliPro, & MCT

Model 7094A AES-IntelliPro

Features

- Transmit full alarm data from any Contact ID or Pulse format alarm panel to AES receiver
- Support for remote account administration
- Primary or back-up communications
- Universal wireless alarm transmitter supports most manufacturers' panels
- Easy to install in IntelliNet 2.0 Burglary Subscriber
- Easy to program using smartphone, tablet, or PC
- Option to monitor telephone lines
- Phone line cut notification via radio

The 7094A AES-IntelliPro is an add-on module for IntelliNet 2.0 Burglary Subscribers that enables transmission of full alarm zone data from an alarm panel to a central station over an established AES mesh radio network.

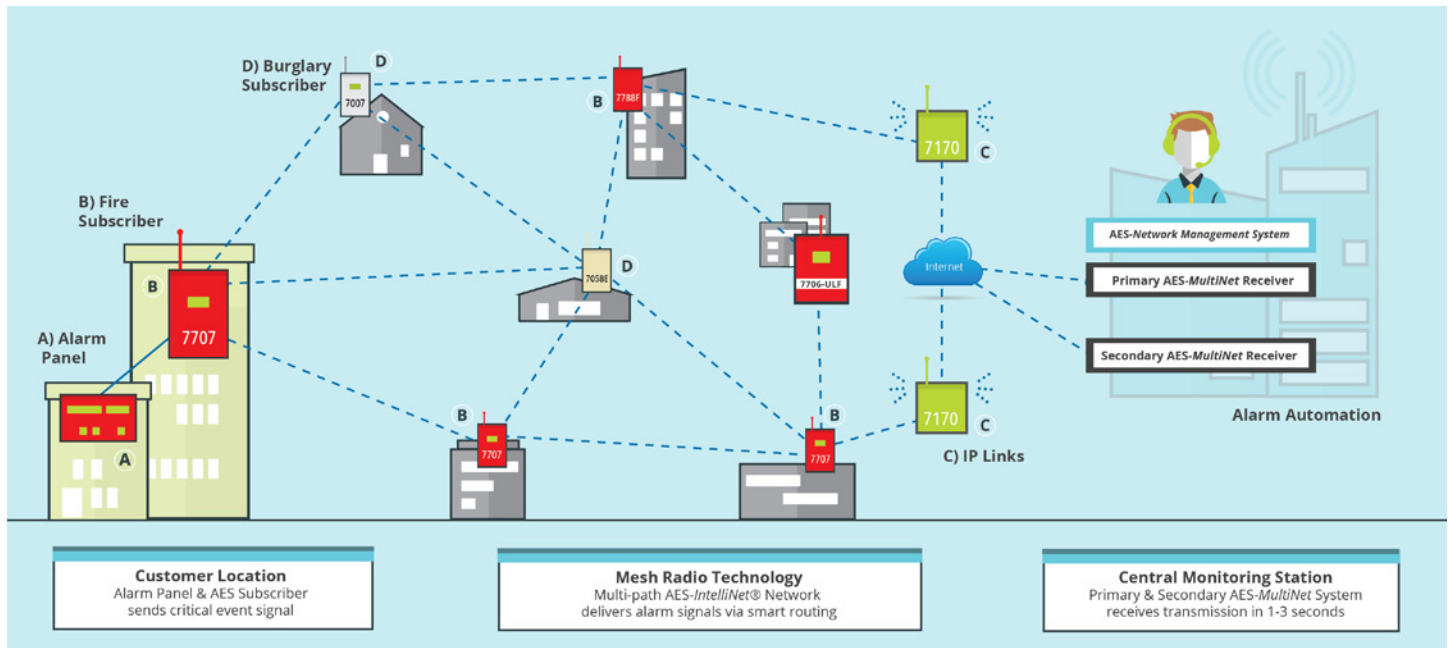

AES Subscribers with AES-IntelliPro can operate in applications with or without a phone line providing full emulation of the phone line for the alarm panel communicator. AES-IntelliPro supports most popular alarm communication protocols including Contact ID and Pulse.

Easy Installation

AES-*IntelliPro* easily installs in the 2.0 Burglary Subscriber housing and is powered from the transceiver module, requiring no additional power connections. 2.0 Burglary Subscribers can be ordered with AES-*IntelliPro* installed and is easy to program using smartphone, tablet, or PC.

Private Wireless Mesh Network

About AES Corporation

Established in 1974, AES Corporation empowers companies to grow profitable alarm monitoring businesses, and government agencies to enhance security anywhere in the world. By providing the industry's only patented operator-owned and controlled private wireless mesh networks, AES ensures superior reliability, low TCO and optimal RMR while reducing dependence on service provider infrastructures. The company's flagship AES-*IntelliNet* systems are deployed in over a half million locations worldwide.
