User Guide

## SOFTWARE UPDATE

Once you have downloaded your AES Subscriber Update (v6.2.03, v7.2.03, v8.2.03), formatted your USB, and transfered the files, you are ready to update your Subscriber.

A Subscriber can be updated with the newest version no matter what state the subscriber is at. For example, a subscriber that is displaying a **"FAULT"** message for a low battery prior to updating the version then this **"FAULT"** message will be redisplayed after the version update. AES recommends resolving any **"FAULT"** messages prior to updating the subscriber.

Instructions

1. Check the LCD display and record the subscriber current version. This will help you verify the software has been upgraded to the latest version after the process is complete.
2. Connect the Flash Drive to the USB port on the subscriber and wait 5 seconds.
3. Reset the unit by pressing Reset button.

4. The Subscriber will reset and power up.

5. LCD will show **"POWERED BY AES SYSTEM BOOTING UP…"**

6. Following message will be **"UPDATING SYSTEM FLASH PLEASE WAIT…"** for 3 seconds.

Do not remove Flash drive from USB when message **"SYSTEM FLASH UPDATED REMOVE USB AND RESET"**.

7. Return to the inside of the panel and press the Reset button.

8. Return to the LCD screen where you will see **"POWERED BY AES SYSTEM BOOTINGUP…"** followed by **"SYSTEM UPDATING PLEASE WAIT"**.

9. Subscriber is now performing the software update. This will take approximately 5 minutes.

10. Once completed you will see **"UPDATE COMPLETE REMOVE USB AND RESET"**.

11. Remove flash drive from USB and press the Reset button.

   • The unit will reboot and finalize the update, this will take approximately 3 minutes

   • The LCD will display the new version as:

      a. 7007 - **"7007 BURG V6.2.03"**

      b. 7177 - **"7177 HYBRID V8.2.03"**

      c. 7707 - **"7707 FIRE V7.2.03"**

Post Subscriber Update

After the Subscriber has successfully been updated, the settings will need to be re-entered. Login to the Subscriber using the steps provided earlier in this document and re-enter the Subscriber settings.
